

# Parcours for the Future Stations

	Station	Mindset
1	Minimizing the carbon footprint of a canteen <b>(phys)</b>	Act sustainable at work: the impact you can have as a professional is huge!
2	Let the train of your future run! <b>(phys)</b>	There is not just one way to go – embrace lifelong learning and un-straight careers!
3	Making your workplace climate friendly <b>(phys)</b>	There are various ways to make professional life climate-friendly.
4	Good News from good jobs <b>(phys)</b>	Sustainable action is possible in every job!
5	Practise sustainable water management <b>(phys)</b>	Sustainability is complex and sometimes not (easy) to be reached.
6	Make a change in other parts of the world! <b>(phys)</b>	Sustainability in your future job has positive effects on the global scale.
7	Diverse occupations for diverse people. <b>(phys)</b>	Overcoming gender clichés is necessary if you want to find your real own way.
8	Digital power up - unlock your skills! <b>(dig)</b>	Digital skills are broad and they are important resources, you should know how to use.
9	The dark side of your smartphone <b>(dig)</b>	Digitalization can bring sustainability forward, but it doesn't automatically do so.
10	Hands on for the planet <b>(dig)</b>	The world is going through a sustainable transformation, and VET (Vocational Education and Training) careers are at the heart of it.
11	Women to remember: a memory game <b>(dig)</b>	Overcoming gender clichés brings justice and wealth to society as a whole.
12	Career Compass: Spin your values <b>(dig)</b>	Getting to know your own values is important, when you want to find your professional way.
13	Twists and turns - the real career journey <b>(dig)</b>	There is not just one way to go – embrace lifelong learning and un-straight careers!
14	Step into tomorrow <b>(dig)</b>	You need to envision the alternative future – then you can bring it forward step by step.
